- o We are proceeding to staff out a response to the attached subject request.
- o Preliminary meetings have been held with NRO and SECDEF Staffs re their support and input.
- o The information requested and the lack of control over what is to happen to it when the NSC Staff gets it causes all some concern. There is no provision for Agency or SIG(Space) review of the NSC compilation of input or advice to the President.
- o We would like to discuss this more fully with you and the DCI at our Tuesday 8 a.m. meeting.
